

### **APM POLYURETHANE 621 ENAMEL**

CODE: **GF 6021** 

Ver 3.00 updated 2025

#### **POLYURETHANE FINISH**

# Product Description

Two components polyurethane enamel based on acrylic polyol and polyisocynanate resin for architectural and industrial application

## Recommended Use

Topcoat for masonry, metal and wood

### **Features**

Tough film upon complete curing Excellent weather resistance Excellent durability Excellent chemical resistance

## Physical Characteristics

| Recommended Application Data             | Dry Film Thickness<br>(μm) | Theoretical Coverage (m²/I) |
|--|----------------------------|-----------------------------|
|  | 30 μm                      | 10 m²/l                     |
| Specific Gravity                         | 1.22 – 1.32                |                             |
| Flash Point                              | 12 °C                      |                             |
| Finish                                   | Gloss, Semi-Gloss, Matt    |                             |
| Color Range                              | Clear, Solid Colors, Me    | etallic Colors              |
| Standard Packing Size                    | 5L set / 20 L set          |                             |
| Mixing Ratio by Volume (Base : Hardener) | 6:1                        |                             |
| Pot Life                                 | 4 hours at 30 °C           |                             |
| Shelf Life 12 months                     |                            |                             |

# Application Method

| Brush or Roller | Suitable method of application                                    |
|-----------------|---|
| Thinning Ratio  | Ready to use. If thinning is desired, do not exceed 10% by volume |
| Air Spray       | Recommended method of application                                 |
| Thinning Ratio  | 30 – 40 % by volume   |

### Drying Time At 30°C

| Touch Dry  | Hard Dry | Overcoating Interval |                |
|------------|----------|----------------------|----------------|
|            |          | Minimum              | Maximum        |
| 10 minutes | 4 hours  | 8 hours              | Not applicable |

# Useful Information

| Thinner  | APM DT 88 Thinner  |
|----------|--|
| Cleaner  | APM DT 88 Thinner  |
| Storage  | Store in a cool shaded dry area  |
| Disposal | Always keep container in a secure upright position. Use sand to contain any spillage. Dispose of paint in accordance with the appropriate Environmental Quality Regulations. |

#### **POLYURETHANE FINISH**

## Surface Preparation

The service and life span and the service performance of paints are directly related to the degree of surface preparation.

The surface to be overcoated must be dry and free from surface contaminants. This coating is usually applied over a suitable primer undercoat or build coat. The underlying system should be sound and un-damaged.

Aluminium, Steel, Galvanized Steel:

Remove all oil, wax and grease by solvent cleaning.

For optimum performance, APM Polyurethane Enamel should be applied to a surface that has been cleaned and suitably primed and built (e.g. with APM Epoxy AC Primer)

# **Coating Specifications**

| 1 <sup>st</sup> Coat               | 2 <sup>nd</sup> Coat | 3 <sup>rd</sup> Coat |  |
|------------------------------------|----------------------|----------------------|--|
| APM Epoxy Anti<br>Corrosive Primer | APM PU 621 Enamel    | APM PU 621 Enamel    |  |

### **Notes**

The coating specifications provided above are typical. For specific recommendations to suit individual applications, please refer to your Asia Paint Representative.

Stir the product well before use.

## Safety Precaution

Avoid contact with eyes and skin. Wear suitable protective clothing such as overalls, goggles, dust mask and gloves.

Do not use in poorly ventilated areas, do not breathe in vapor or spray mist.

This product is flammable. Keep away from sources of ignition. Do not smoke. Take precautionary measures against static discharge.

In case of fire, use carbon dioxide, normal foam or dry agent.

#### First Aid

| Eyes       | Wash off in flowing water or shower  |
|------------|--|
| Skin       | Flush with plenty of water   |
| Inhalation | Remove to fresh air, loosen collar and keep patient rested   |
| Ingestion  | If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel |
|            |  |

For further safety information, please refer to our **Safety Data Sheet (SDS)**
